

2022 NARST Annual International Conference

Participants Schedule

The following list is provided to allow you to look up sessions to which you have a commitment during the 2022 Annual International Conference, including Stand-Alone Paper Sets, Related Paper Sets, Strand- or Committee-sponsored Sessions, and Symposia. Both all-virtual and in-person sessions are included. Not included: the Poster and Roundtable Discussion session, pre-conference workshops and similar events, and working group meetings.

Under Sessions, you will find the titles, dates, and times of the sessions to which you are connected as an author, co-author, presider, or discussant.

Every effort has been made to minimize schedule conflicts for all authors. If you find that you are scheduled to present in two sessions at the same time, please contact the Strand Coordinators. They can rearrange the order of presentations to allow you to present in both sessions.
