

National Association for Research in Science Teaching Selects Management HQ as its Association Management Partner

Minneapolis, Minn. – December 9, 2022 – The National Association for Research in Science Teaching (NARST) has selected Management HQ (MHQ) to serve as its association management partner, beginning December 2022.

“NARST conducted a thorough search for an association management partner and we received interest,” said Dr. Gillian Roehrig, NARST President. “From four finalists, we chose MHQ because of the team’s professionalism, expertise, and commitment to serving associations that are determined to thrive.”

MHQ will support the NARST Executive Director and Board of Directors, providing strategic guidance and managing all aspects of the association’s business including financial management; membership development and retention; board and governance support; marketing communications; technology support; event support; and office administration.

“The MHQ team is honored to support the work of NARST, a global organization committed to the improvement of science teaching and learning through research,” said Dara Rudick, CAE, MHQ CEO. “The work of NARST and their members align well with our values and the type of positive impact we want to have within our global communities.”

“MHQ brings the talents needed to support our engaged board leaders in driving NARST’s mission and ensuring that our organization and our members thrive,” said Dr. Roehrig.

About NARST

The National Association for Research in Science Teaching (NARST) is a global organization of professionals committed to the improvement of science teaching and learning through research. Since its inception in 1928, NARST has promoted research in science education and the communication of knowledge generated by the research. The ultimate goal of NARST is to help all learners achieve science literacy. NARST promotes this goal by 1) encouraging and supporting the application of diverse research methods and theoretical perspectives from multiple disciplines to the investigation of teaching and learning in science; 2) communicating science education research findings to researchers, practitioners, and policy makers; and 3) cooperating with other education and scientific societies to influence educational policies. For more information about NARST, visit narst.org.
